

AO MIDORI BIOCONTROL S.L. takes up the challenge of implementing and certifying a Quality Management System according to the requirements of ISO 9001:2015, with the following strategic foundations:

1. **CUSTOMER ORIENTATION AND INNOVATION:** detecting and meeting your needs in relation to our products, and anticipating your expectations through their development and continuous improvement. Identifying the needs of markets and potential customers and driving our portfolio of innovative solutions and products.
2. **QUALITY OF OUR PRODUCTS:** establishing the requirements and quality parameters applicable to the associated products and services and complying with the internal quality standards specified and agreed with our customers including legal and product registration requirements, safety requirements and commitment to ecological farming methods and the environment.
3. **EMPLOYEE COMMITMENT:** involving all AO MIDORI staff in the development of the Quality Policy, Quality Objectives and the continuous improvement of the Management System and AO MIDORI processes. The collaboration of all is necessary to improve our company day by day.
